

Highway Electrical Association Member Benefits

The HEA's main objectives are:

- ✓ To set the standards for work in the highway electrical sector and through auditing, to ensure that its members conform to these standards, including the Code of Conduct
- ✓ To be at the forefront of competence and employee technical and safety training and to ensure that all member organisations and their employees are registered to the Highway Electrical Registration Scheme (HERS) where applicable
- ✓ To represent the interests of its members through contact with government and industry organisations and departments
- ✓ To provide nationally accredited training and assessment services through its training arm – HEA Training.

Membership Benefits also include:

- **Discount / Reduced rates on nationally accredited training through HEA Training**
- **Access to additional Nationally Accredited Training (HESA + Lantra Awards)**
- **Exclusive access to HEA SAS (Safety Advisory Service)**
- **Access to HERMIS (Highway Electrical Risk Management Insurance Services) at exclusive rates**
- **Access to CBQ-NVQ advice, documents and practical help**
- **Access to SASE Approved Apprenticeships (non-exclusive)**
- **Access to Highway Electrical Technical Certificates (through Lantra Awards) (non-exclusive)**

Membership Benefits Include:

- **Representation within the industry and to government**
- **Seminars and Exhibitions incl. HEA A.C.E. (Annual Conference and Exhibition)**
- **Networking through HEA Members' Meetings; HEA Golf Day, HEA A.C.E.**
- **Inclusive copies of Highway Electrical News (HEN)**
- **Discount on HEN published ad rates**
- **Auditing to HEA Code of Conduct and HERS**
- **Technical and Safety Information through emails, HEA Training and Safety Committees and HEA Sustainability Forum**
- **Inclusive registration to Highway Electrical Registration Scheme (HERS)**
- **Access to HERS Help out sessions**

The HEA – the Highway Electrical Association – is a new organisation with a big history (60 years in 2012). Formed by the amalgamation of ASLEC – the Association of Signals, Lighting and other highway Electrical Contractors – and HEMSA – the Highway Electrical Manufacturers and Suppliers Association – in 2011,

It represents over 80 Members whose contracting activities range from street lighting, traffic signals and signs to highway communications and camera systems and approximately 40 Members who manufacture, assemble, supply and distribute equipment into the Highway Electrical Sector as well as overseeing and client organisations.

This makes it one of the largest and most influential body in the sector. Membership of the HEA is open to any organisation operating in the highway electrical sector.
